

# MAXHUB

180°

MAXHUB UC M31

## A COLLABORATION EXPERIENCE THAT'S 180° FROM ORDINARY

4K 180° Panoramic Camera

The MAXHUB UC M31 revolutionizes video conferencing with a panoramic 180° field of view, combined with auto tracking and five video layouts to suit every meeting type from small-group to full-room presentations.

110° FoV

180° FoV

## 180° panoramic technology, see the big picture

180° Field of view

- Even in the smallest room. Make the most of your limited space with full-picture immersive technology that captures every participant from far-to-the-left to all-the-way-right.

# Amazing 4K UHD clarity, now you've seen it all

Triple 12MP cameras | 4K UHD resolution

- Get ready for a dramatic leap forward in image quality. Thanks to advanced optics and breakthrough technology, the UC M31 delivers vividly superior video conferencing.

## Change video layouts with a single tap

1-click video layout switch

- A touch is all it takes. There's no need for special training or complicated software operations. Simply tap the top of the camera.

## Six video layouts, all at your fingertips

- You gotta see it to believe it. The UC M31 offers layout options to suit every communication scenario from one-way lecturing to multi-party brainstorming.

# Six Display Modes

## 1 Compose Mode

Combining a panoramic view with closeups, you can view the whole room while seeing 6 key participants in closeup.

## 2 Manual Mode

Zoom into a specific area anywhere in the room.

## 3 Body-fit mode

Focus on all the participants

# Six Display Modes

## 4 Grid mode

See closeups of 4 key participants simultaneously, each in their own quadrant.

## 5 Presentation mode

Focus on the whiteboard and the active presenter at the same time.

## 6 Speaker mode

See the whole meeting room while focusing on all the participants simultaneously.

# Auto-track, follow the conversation

Auto tracking technology

- Collaborate naturally. The UC M31 not only recognizes and zooms in on meeting participants, it can track speakers as they move about the room.

- Auto-track the change of positions

- Auto-track the change of attendee numbers

# Optimize sound and video with the BM20 speakerphone

Bundled solution with BM20

- ▶ Meet face-to-face, and ear-to-ear. Enhance collaboration with the MAXHUB BM20 360° Omnidirectional Speakerphone, deployable with a single USB connection.

## Get up and running. Fast

Integrated Type-C & USB connection

- Connects to your Bluetooth speaker without an external USB hub
- Plug-and-play setup and operation; integrating with your existing central control system.

## Accommodates every platform from A to Zoom

Works with your conferencing software. Start from what you are currently using.

The US M31 performs beautifully with the world's most popular UC platforms.
